

Sheepscombe Night Event – 17th December 2011

Parking will be on a woodland track. This track leaves the road at SO897099, but the event will also be signposted from the B4070 between Birdlip and Stroud at SO902100.

The National Trust warden has asked me to emphasise that cars should drive carefully and slowly along this track. The track passes his house, so he might be checking!!

As is usual for Western Night League events, this will be a one hour score event with penalties for taking longer. There will be 30 controls, and numbers 1-6 will form a loop of Yellow standard, for those who like to stay on the paths. Usual WNL rules apply.

You may cross the various fields marked on the map to make short-cuts. However, you **MUST** use the marked crossing points. One particular short-cut is highlighted on the map, and this will be taped to avoid confusion, as it ventures a short way off the map!! Some of the fields contain livestock.

Starts will be from when it becomes dark for one hour. I expect the first start to be around 5pm.

My mobile number on the night will be 07989 276668.

For further details before the event, call 01242 516053 or email captain@ngoc.org.uk
